Modern and high-quality building under construction in Umag.

Description of the building:

It consists of four entrances and a total of 122 apartments - of different layouts and square footage.

The project offers a variety of studio, one-bedroom (+ living room), two-bedroom (+ living room) and three-bedroom (+ living room) apartments - vertically connected with elevators and stairs from the parking floor to the entrance to the apartments.

Modern and comfortable apartments also have spacious balconies, loggias and/or terraces with a garden, which provide high quality housing in a unique location near all amenities.

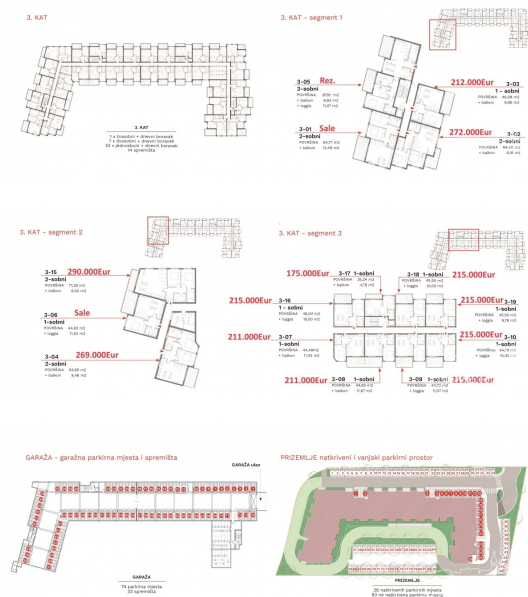

Construction:

CONSTRUCTION

The load-bearing system of the residential-commercial building is designed entirely from reinforced concrete monolithic construction, mezzanine slabs.

The partition walls inside the apartments are made of double-thick plasterboard coverings (W112) with additional heat and sound insulation.
