In an idyllic setting, a semi-detached house with a sea view is under construction. One house from this pair has already been purchased, so only one is still available.

The house is 100m2 in size with three bedrooms, two bathrooms, and a spacious living room that connects to the kitchen and leads to a covered terrace. The planned heating will be underfloor, electric, and air conditioning will be used for cooling.

The 265 m2 plot offers the possibility of installing a swimming pool. The house will have an A+ energy certificate. The expected completion of construction is 03.2026.
